### **The Promise Partnership – A Unique Way to Support Hospice & Palliative CareCenter**

For anyone facing a life-limiting illness, Hospice & Palliative CareCenter provides unmatched medical care, counseling, and spiritual support with the utmost compassion. For families dealing with the emotional and physical exhaustion of caring for a loved one near the end of life's journey, we are a vital connection to hope, respite, and support. Through The Promise Partnership, you can help us in our daily work by having a consistent and positive influence on people who are experiencing the most vulnerable time of life. Your simple but significant involvement in this ongoing giving opportunity will truly make a difference as we deliver a wide array of essential services.

### **30 Seconds. 30 Dollars. Endless Possibilities. 30 Dollars a Month. 360 Dollars a Year. 360 Degrees Completes the Circle of Care.**

The Promise Partnership is comprised of charitable people in our community who want to be meaningfully connected to Hospice in an easy, affordable, and continuing way that promises to give hope and support. For \$30 a month, Promise Partners gain real ownership — ensuring that we will be here in the future to help anyone in our community who needs the compassionate end-of-life support only hospice care can offer. In as much time as it takes to write a small check each month, you can redefine hope for people who are facing the most difficult time of their lives.

### **A Bridge to Hope**

People are often surprised to learn that Medicare, Medicaid, and private insurance do not cover all the expenses of hospice care and that we depend on community support in order to bridge the gap of this shortfall. In order to provide our primary services — not to mention the many supplementary programs we offer — we rely on the generosity of people like you who believe in our mission and want to be a part of expanding hope and compassion. Whether it is making hospice available to someone who cannot afford it, or attending to the needs of someone grieving a loss, or assisting families with advance care planning, or helping doctors understand new strategies of pain management and comfort, Promise Partners have a positive impact on the lives of real people every day.

### **“Yes, I will.” It’s as easy as that.**

We hope you will become a regular contributor to The Promise Partnership and help energize this powerful promise of hope. Without question, there are few opportunities in our community where so much good can be accomplished through such a manageable and uncomplicated commitment. We owe it to our patients and families to make it a little easier, preserving their dignity while giving them comfort and hope as we guide them toward acceptance and peace.

“I want to make a difference, and I know making this commitment is a powerful way to impact my friends and neighbors. After all, many of us will be touched by Hospice one day. I’m really proud to call myself a Promise Partner.” — *Michelle Kennedy*
